Nice... are you going to sell an e-book or whats the plan? Hopefully it will either be pic packs or VCW because I can't stand these e-books.

Updates are being added to the ones that are \$40 so they will be more worth it, it was quite expensive to make a couple of them and time consuming - having to remove watermarks and such. We are willing to help people at least earn the money back for their pack through mentoring if they think the price is too steep.

For example Amanda is getting more videos and the Rebecca pack is soon also. Prices can be negotiated if you wish to purchase more then one pack also, just PM one of us.

Derrick420 - August 29, 2017, 6:15 pm

Kind of high priced, wouldnt you say OP? and what is the number of photos to be considered a snapchat pack??

Its about the size of the photos and videos that make it a Snapchat pack. Not the amount?

Do you pull these off being available once each one is sold ? This is probably a question with an obvious answer but idk some people sell each one to a couple people before pulling it.

Shutdown my man. Finals are done and I'm looking for something new to try out! I'd like to buy the christmas special, 3 packs for \$50 BTC. Message me back when you can, ready to buy right now. Also, is it 3 packs of my choice or is it up to you?

Huge vouch for Shutdown! These are some of the most HQ packs I have used for ewhoring. Right

now with a couple of these packs, im making over \$100+ a day and \$500-\$1000 weekly. If done right, with these packs, you can make some big bucks. I quickly made back my initial money spent on these packs in less than an hour. I would not hesitate at all dealing with this user as he is very nice and very helpful.

Looking forward to your future packs man! Keep this work up! <3

I don't know if I vouched for this guy by now, but I made a lot of \$ with 3 packs I got from him, they are golden. The delivery is quick, safe and the payment is even safer. Since I'm not upgraded I can't post pictures of earnings, but if anyone is interested in proof, hit me up.
Big vouch once again!

Okay? How about you send a message of who the person was instead of trying to sales trash and bash my thread? Also, I hope you know leaking can result in a ban btw.

God damn these are pogchamp packs you got here my dude! I thought the prices were high, but I took the chance. The results were more than positive. I was able to make up the money I paid for the Ariel pack in a matter of time with the addition of his mentoring. Paid \$29.99 for it and made 3X more with it. I've never seen anything so original compared to the packs I used to use. The packs I used to use were so saturated that you would easily find them on Google, and the results of those can't compare to the results using Shutdown's packs. Though I feel bad and good at the same time, the Ariel pack definitely has changed my income from zero to rich af. I stopped ewhoring, but I HIGHLY RECOMMEND you buy these packs, you won't be disappointed.

My review of the Ariel pack.

The pack is overpriced in my opinion at \$30 USD, the videos themselves vary from 8-10 seconds and there are over 30 of them resulting in nearly 5 minutes of viewing time which is not much. Some of the nudes in the pack and social media pics are not of the ewhore and by that I mean they are completely different, different hair, different cup size, etc. The majority is of the girl in the previews though, the pictures are sorted in nice folders to help organise everything and the quality of them does look fairly modern. The majority of the pics sorted in the lingerie/underwear section are NOT of the ewhore advertised, same with the so called same-outfit pictures advertised.

Overall, the pack is overpriced and about a quarter to half of it is of another model which looks nothing like the ewhore advertised. Do I recommend it? I will re-edit my reply when I make some money with it. Just be warned, I personally sorted out the garbage low-res pictures of the other model which took out a chunk of the photos.

Also to the creator, fix your shit, I paid for the model advertised not for half of it being some low-res 2010 model.
