I've begun the method with OP and might I say the service he is providing is top notch. Will update when everything comes together as it does take some effort!

Cubex-Software - August 23, 2018, 6:42 am

No, is not about reselling or pasting any hack.

Hello people,

It passed a long time since I have opened this thread. It was closed due to testing and a lot of changes in the method.

I decided to give it another shot and help you guy's as well.

If you are interested hit me up with a PM, and I'm more than happy to help you and give you some more details.

so theres two funny things about this thread. One he fails to EDIT his income via inspect element and the second is he claims to teach you how to MAKE an UD cheat for \$100. lol dont be fooled, the knowledge you need to gain to learn to make a cheat is nothing he will teach you for \$100.

Almonds - July 13, 2019, 10:40 am

I previously had a horrible experience with your cheats, about a year ago. Ended up having to dispute via PayPal as I never received any type of product, you never replied to any PMs either. That should speak for itself- what once was, is no longer.

I'm not teaching anyone how to make cheats, it doesn't has to do anything with coding. Not able to EDIT the thread cause it was closed for a long time.

I don't know what was the issue, I'm sorry if that was the case. I'm more than happy to help you with anything regarding cheats for FREE to compensate.
