I'm surprised these cops are so calm and patient. They even let him talk lol.

In the Netherlands they would've slapped him and thrown him in the car, they wouldn't even listen to his story.

They probably would've handled it differently if it wasn't being filmed. But it seems he's innocent as they took the handcuffs off camera or no camera.

Something happened on some road near him and he obviously didn't want to be near it so he ran. He said they didn't even ask him to stop either.

Gaming. - August 26, 2017, 5:44 am

Since this a while ago and damn yeah it's funny.

Yeah the cops were pretty much speechless. They are not like that when they know they are in the wrong. They must get so mad when someone knows their rights and they're not in control.

Lol in America that guy would have been on the ground
UK cops are too soft

Honestly here in America this dude probably woulda been tackled, dropped, and had a knee in his back + some nice metal bracelets. Might have even been tased.
