Thread: [Signature not working for me?](#)

Payload - August 27, 2017, 9:50 pm

I searched around but can't figure this out..

My image is 650 x 160 and under 500k but in my signature it shows the code?

Deany - August 27, 2017, 9:52 pm

What error message are you getting

wit - August 27, 2017, 9:54 pm

Its working fine for me what do u mean

lwrist - August 27, 2017, 9:55 pm

You need to put https://

The forum only supports TLS.

Riyu - August 27, 2017, 9:55 pm

There's no s in http. Try adding an s?

Payload - August 27, 2017, 9:55 pm

Edit, I had to use HTTPS lol, mybad, thanks everyone!
