it's my pleasure doing business with you Sir ?

Hi all,

I am in need of a userbar, below are the details :-

Size - 164px x 64px

Background - Transparent

Website color - Website color is dark (#181818) so userbar should suit on a darker color scheme

Shape - Can be rectangle or can have round edges or wrapper around a icon on a size and other rectangle or round (not too round though)

Text - Elites Guardians

Userbar Color - Blue / Grey / Orange / Mixed color / Anything that you feel best

Effect - Shine effect(even animation will be cool)

Icon - Can add some really cool icons

If you need some ideas, check [this link](#)

Paying 50\$ now

Please watermark your ideas so that everyone has unique design and I can select a winner.

Payment will be done after successfully selecting a userbar. Please post your design below.

Payment via PayPal :)

Regards

I am going to give this a shot. Will edit this later on and PM you with the update.

Updated: Here's my entry. A few color variations all showcased on the background color you've mentioned so you know they are visible.

Some of the userbars I really like, but no one has any type of animations or really stand out.

Looking forward to more response, as I said you can check the other userbars on cpaelites and the guardians userbar should stand out more than any other userbar.

Here is something I came up with.

I liked how arkrafay implemented a Spartan so I made something also based off one!

Note: Some of the shading and light spots are hard to see, if you want me to make changes to see them better let me know!

I like the spartan icon in this but I don't like the userbar.

#4 is one I like for userbar design but the icon isn't good in that and no animation.

This one is simple and nice. Maybe another icon in the shield instead of a gear would make it perfect.
