Birds and "dogs" all accounts include more than just 2 legendaries and are varied.

What are the chances of the account being banned or anything like that?

Also, do you have proof the accounts are real etc

I ordered order id is: 6fb951ad-6a14-4766-b572-d5c82e28d3c5

Yet when I got the email with the account details it just said:

D

No username, no password. Can you actually message me account details please :@ pretty annoyed as thought this would be instant

I'm going to give this 1 more day for the seller to respond, otherwise scam report and paypal dispute.

Hoping it's a simple misunderstanding, looking at his feedback score though, I'm not so sure.
