Thread: [Gantz / Gantz : 0](#)

CorrosiveBlueberry - August 28, 2017, 12:46 pm

Just watched Gantz 0. I have to say it was pretty enjoyable and faithful to the manga for the most part. Although it only covered a small part of the craziness I'd hope would be covered from the manga.

Spoiler ([Click to View](#)) I would have wished that it had included more scenes with kurono. I also want a Gantz anime adaptation including all the crazy shit from the manga where it becomes like kurono and various teams vs vampires iirc. Also eventually it becomes ganta teams vs vampires vs crazy fucking monsters so it's like a 1v1v1. I really would like to see an anime version.

But Gantz 0 was pretty good anyways

Haven't seen it yet, how was the CGI?

CorrosiveBlueberry - August 28, 2017, 3:42 pm

I'm not a big fan of cg/cgi obviously but it was watchable and honestly it made me reminisc of the manga which was so great. Gantz;0 gave me the feels at some points and I was sober .

I generally don't read manga but Gantz is one manga I read basically all of. I have to say Gantz is something you definitely should read because the anime barely covered anything compared to what happens in the manga.

I hope there is more Gantz adaptations to TV as I don't really read well and reading isn't the best way to depict how amazing the story of Gantz was.

Ye the manga is still on my PTW list, been meaning to read it ever since I watched the series, but that's good to hear at least I'll give it a watch in the future.

gantz to me has a 6.5 out of 10 not the most triple A manga in my list but still enjoyable

I find the Gantz anime to be pretty shitty (that includes cgi movie and the older t.v. anime), but yet the manga looks so cool. I want to read it but the anime has just turned me off gantz so hard.

Holy shit fam you're alive, how've you been

Geass - September 27, 2017, 12:56 pm

I have seen the Gantz anime but not this one you said, will check it definitely.
