Yes, send me PM.

This looks amazing, I would really love a vouch copy if you are still giving them out... Also, if you are doing any banner promotions for any giveaways or anything I'd love to participate in that too. Thanks for contributing to the community by providing this. I can provide an in-depth vouch of this.

Read what error you got: POST Content-Length of 9034157 bytes exceeds the limit of 8388608 bytes

YOU CANNOT SCAN FILE WHICH HAS MORE THEN 8 MB!

- 1) go to the scanner and register/login with your email and pass
- 2) then go to the user panel and insert license key which you received after the purchase
- 3) DONE!

Is that so hard... ?

Cyber Warrior - January 16, 2018, 3:54 pm

Vouch for Spyral Scanner. I was using it for a week and so far I'm satisfied. Kind and polite support, answered all the questions I had.

Plus the scanner is pretty cheap, anyone can afford it.

kid?

I bought two products on your website, and I have not received any of the 2, I sent the email with the screenshots of the problem and I received 0 replies, as I lost my money, I put it here so that people see the service crap what you offer, nothing more. BEST REGARDS.
