WHen i want to post a reply in a section of HF it says I don't meet the requirements to post in the sections and ask me to upgrade my account

It cost money. I don't have money. which is why i am in the free money making part of the forums. why won't it let me post, it doesnt even give me the requirements i have to meet???

Don't tell me I have to pay money to meet the requirements to post a reply in the free money making guides section???!?!/

You either need more high-quality posts, or reputation. Or both which increase your prestige.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

You currently have 0 reputation.

Hey, I had the same struggle when I joined back in 2014, I gave you some rep to explore the rest of hackforums, enjoy !

This doesn't make any sense. There's no requirements to post in that section, and it's not in the marketplace.

And even if it was in the marketplace, the positive reputation requirement is removed.

Does it really says that you have to be an upgraded user?

It's either the rep you gave me or maybe the fact that I created a new thread? Either way I was able to post in the section after this. Thanks dude!
