Thread: [\[H\]\(\\$150 AGC / \\$250 AGC } \[N\] { \\$100 BTC / \\$190BTC } PROOF OF AGC BALANCE](#)

I keep posting , due to receiving new cards with different balances lol.

So I have the \$150 still, want \$100 for it.

and have now, a \$250 (also US) amazon gift card.

\$190 is a reasonable price for anyone trying to profit so hopefully I can get these gone.

Trying to have them gone within the hour, won't go first but I have a good reputation built (Marketplace wise).

I only deal through hackforums for your and my safety.

Shit, I'll drop the prices then. I guess %75?

Prices modified! \$150 for \$100, \$250 for \$190

75% will sell within a day or two. That's more reasonable to what others sell for. Best of luck!@!

Still looking for this. Just got my time wasted lol, I made it clear in the thread I'm not going first.....

I don't / never have had any scam reports, nor do I have any negative rep regarding Trustworthiness / CE / Marketplace.

Thanks

If you can't add I have \$400 total in AGCs. Im willing to get rid of the entire \$400 balance at a solid price of \$275.00 BTC.

\$275 is \$5 lower than a 70% rate of \$400.
