Thread: [HYIPs are not allowed BUT?](#)

7Entrep - August 31, 2017, 10:22 am

Greetings HF,

I realise that HYIPs are not allowed here on HF not in the form of a thread nor a website.

Although i have a question regarding this subject: Is it allowed to release a (free) ebook regarding the setup of HYIPs, it's industry and all ins & outs? ?

webdev77 - August 31, 2017, 10:22 am

No. No HYIPs means no HYIPs of any kind.

I'm talking about a informative ebook ABOUT HYIPs.

Then if you confirmed that you would know that no means no. You can't have anything related to HYIPs on HF. Period.

Any content offered about HYIP would be DBA.

Alright finally a properly confirming comment of my concerns, thank you very much ?

@Webdev77 you kept on saying that HYIPs are not allowed something which i already confirmed myself and also stated out clearly 2 times, i was asking (telling you this for the third time) about side content regarding the subject.

7Entrep, all content related to HYIP, no matter what form, would be considered Disallowed Black Hat Activity.

I recommend you take the time to read the [Help Docs](#) and the section that talks about what is considered Disallowed Black Hat Activity - you can find that here -->

<https://hackforums.net/misc.php?action=help&hid=21>

Let me know if you have any other questions about the [Help Docs](#).

No, not allowed here.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.
