Thread: [I'm back to e-whoring! Made \\$340 today](#)

Paladin - September 2, 2017, 7:55 pm

Hello Guys,

I can say i have a lot of experience with e-whoring, i worked for a few years and in the past i have earned about \$20.000. I never worked hard, only worked for a period, when i earned something i use to spend it on Drugs, Gambling, chiks, Parties< I used to be very depressed because i spend almost all the money and i didn't worked.

I'm almost broke right now.

I decided to start new life, no gambling more, no parties for some time and focusing on internet marketing.

I started today with e-whoring, i texted my old clients and i earned \$340 from two clients, which is good for me, I worked only for a two hours.

I decided to start working hard, for now with e-whoring and trading with crypto currencies but I'm planning to start new projects soon.

Exactly on the same boat as you brother. I really got to get my money up so it's time to lay off the drugs, parties n thots. Real wallet killers .

that's pretty crazy for 1 day dude how long did it take you?

Rolex Gold - September 4, 2017, 9:46 pm

Good for you man.

I have also stopped gambling and have focused my attention towards being productive.

I rarely go out anymore, I try to spend as much time making money and my remaining time exercising or studying.

Never been better.
