Also to mention I went with the option where he logs into your account and that went without a problem , if you have any doubts regarding this service message me :)

Yeah its pretty dang cool!

Just think about it. A shark card costs you about 70 EUR to get 8 million or so GTA \$ lol

If you take the VIP package from YoungAce for 18 EUR you get lots of cool stuff, a higher level in GTA and 300 , 400 , 500 million, as much as you f* want Tony Montana like million GTA \$ included ?

From now on you can enjoy life as a millionaire. Chillin in your marble floor 60 car garage over in Maze Bank tower which (the garage alone) has cost you 5 million \$. Smoking weed and trying to decide which one of your fully upgraded super luxurious cars you gonna use to drive to your fully upgraded hangar over at LSI airport ?

And most important: No more need to do Lester's stupid heists ?

I've been in dire need for some money in GTA V.

I stumbled across this thread and read through the post. I decided to join the Discord chat, and 30 seconds later I get a message from youngace.

At first I thought it was a bot, but no, it was actually him. I asked a few questions and he promptly answered them. He linked his website and I went ahead and ordered some money. I messaged him in discord and he told me to wait two hours. Two hours later and he tells me it's done. I log in, nothing's been changed besides the sweet sweet numbers in my bank account. This was a fast, and so far reliable service.

To sum up:

10/10 Service!

EDIT: I apologize for the neg post I made about this service last night. It was my error that caused the ban. I have been playing since 2014 as a pvper and because of that I had a ton of reports (40 griefing and 60 cheating reports) I used a jet last night and 1st person sniper that caused a person to report and due to that rockstar was watching my account during the time of the money drop. This service has great support and I apologize to youngace and his staff.

I just got banned almost a month after I bought the VIP package, can't vouch for this any more. I was level 200 and had 500m cash, so not even full VIP.

Didn't play on the account for the past 3 weeks, so I probably got banned before now so I'm not sure about the exact date.

Bought this service two days ago, was instantly banned and had everything reset. YOUNGACE promptly got me a new account with a warranty so that's all good. The service itself was really accurate such as money, stats, rank. I believe my profile had extra flags from before, not sure why but it appears that it's really rare to get banned from this service. Overall, I would recommend this guy if you are looking to get your GTA profile modded. Thanks

A bit late on the vouch but this is 100% legit and actually made GTA Online enjoyable. If you're based in USA there was a small fee when paying with Paypal but I wouldn't hesitate to pay even double what I did. Its unreal that R* sells \$20MM for \$100 USD while these guys sell \$500MM for ~\$6 USD.

The service was excellent and the money was delivered within 10 minutes.

Anteup22 - September 3, 2019, 10:47 pm

OPModz modded my account very quickly. Due to the time difference they were not online when I made the purchase. However, once they were online they completed it within 3 hours. Unfortunately my account was banned because Rockstar RECENTLY upgraded their mod detection.

However, OPModz explained to me that this NEVER happened and I was the first one (because of Rockstars new detection). Because I was the first one to get banned, OPModz had to verify that it was on their end. After 2 days, it was concluded that they would replace my account. I received my new replacement account in 3 days. But because of rockstars new detection, OPModz can only give me 24 million per day (I ordered diamond package 1 billion dollars).

OPModz was able to mod the replacement account they gave me. They came online and In 20 minutes I went from level 50 to 151, and 24 million dollars richer with max stats.

Thanks OPModz!

Right Click and Suspend the Process for A Few Seconds And the resume The Processes. this Will Create A Public private Session. DO THIS FOR EVERY SESSION . The reason Why i say this Is Because A 10 year Was Being Rude and Racist to a South Korean and Hispanic Player During a heist And i got into With him And Anyone running a Mod Menu can tell someone is a Modder/Modding. so Be careful While in a Public Session Your K/D is Visible So 500.00 K/D is Highly Unlikely for any player. Sorry I was Giving Advise to People To Force a Network Glitch that Allows one to Be alone in Public Lobby. I was Suspended on the account "Bullying and harassment" Because Kids are Evil And i Let him have Piece of Mind Nothing to Bad Kicked him from Sessions/blocked Him And Finally told him Rudely to Unplug His Mic along with other Things So my account got Suspended for 30

Days and Full PC Character Reset.

Lesson Learned: Kick Players Fully Off GTA V online And Have GTA v Casino Heist Set to Private And Accept Valid Non Modding/Adult players.

I generally Hate 10 Year Old Skiddies Got DDoSed Kid wasn't Smart i Have 3 PC's in My Room And I routed Back His DoS Attack and now his Parents Will be answering the Questions Of the FBI's Cyber Crime And why There Parenting Sucks.

This was A PSA to Play alone and With Trusted Friends Will Buy again if Needed

EXTREMELY LEGIT.

I went into this a bit skeptical due to the rumors of bans going around but decided I needed the in game money so I took the risk. The OP was able to take care of my account in a timely manner with very easy communication and solid work. I even got four of my other friends to do it and we are all having the time of our lives playing online again. Thank you so much.

Do not hesitate to deal with, might be one of the only legit services out there currently. 10/10 from me!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
