Thread: [\[Physical Shop\] BOWLS, CHILLUMS, AND A COMPACT VAPE \[NO ID NEEDED\] 35% OFF + FREE SHI](#)

Hey everyone, if you haven't seen my older shop I work with a glass blower that produces some high quality glass.

I've stepped back from selling these pieces as I started selling bulk orders to smaller gas stations around my area sufficing me with enough money that I didn't need to sell these that much.

I've pretty much stopped smoking with pieces, so I just want to get rid of them as soon as possible.
