You've just came across the #1 Sports Betting Tips & Advice Service on HF! I'm Aedan, and I'll be assisting you along to your journey of earning those bucks!

Sports Betting is a perfect way to earn money quick, but sometimes you just don't know who has the upper side, or if the underdog actually has a chance this time around. I'll be there for assistance as to who you should take a chance on!

I've grown up playing Soccer, Lacrosse, Basketball, and other various sports throughout my childhood, and along with that I've became crazy on watching professional / college sports. Statistics are just something I love!

With this Sports Betting Service, you can choose between different options of how you'd like me to support you. Depending on your purchase, I'll help with one single game, 24-hours worth, a week's worth, etc.

There are so many sports out there that you can bet on, although I'll only be assisting those with bets that include: Soccer (Premier League, MLS, La Liga, Serie A, Ligue 1, Bundesliga, International, College), Basketball (NBA, College), Football (NFL, College), Baseball (MLB, College).

Now, the prices:

One Bet | Vouch Copy on first play, \$1.00 each

Five Bets | \$3.00

24 Hours | \$5.00, unlimited bets in 24 hours

Week's Worth | \$25.00, unlimited bets in 1 week / 168 hours)

Discounts will be given when I feel like it, if you're a valued customer (meaning you come back again after buying once), you'll start to receive discounts for your purchases.

Terms of Service

1) By purchasing or dealing with @Aedan_ on HackForums or Discord, you abide to the Terms of Service, later referred to as TOS. Going against the TOS can mean serious issues.

2) The TOS may be changed at any time, although any past clients from the recent 2 weeks will be notified of this action.

3) When purchasing from any of the deals, you decide the amount of money you place on the bet. I am not persuading you or telling you how much money you should place on the bet, only I will tell you who should you bet on. Any money lost from betting itself will not be returned, although I do have ways to give some of your money back, which will be followed in the following:

3.1) If you purchase the One Bet package, and lose the bet, you will be payed back \$1.00 in PayPal F&F, later on referred to as PP F&F.

3.2) If you purchase the Five Bet Package, and lose 2/5 of the bets, you will be payed back \$2.00 in PP F&F.

3.3) If you purchase the 24 Hours Package, and lose 1/2 of the bets, you will be payed back \$4.00 in PP F&F.

3.4) If you purchase the Week's Worth Package, and lose 1/2 of the bets, you will be payed back \$20.00 in PP F&F.

4) All transactions will be done via PP F&F.

Please feel free to ask any questions via PM or the thread, I'll be more than happy to discuss any inquiries that you may have.
