**Salvage** - July 27, 2010, 6:39 pm

The keyvaults aren't unique...he is using them right now so you guys have an hour probably to use it now...

**Drizzy** - July 27, 2010, 6:43 pm

lol does it really matter? its free its called a shared kv.... not tht big of a deal

**Salvage** - July 27, 2010, 9:13 pm

Yeah, I know not a big deal...but most people are getting excited because they would be able to use it later on without worrying and selling it for full price. Good job I guess..
