I added him

Shouldn't be "Best" in the title. Just "Designers". A list of designers.

One or two of the mentioned in that list is by no means "best".

it's just op's opinion though .
the best designers on here are those who won the (GOTM) contest i think .

OP , i should not be on the list of graphics designers
since i'm a graphic artist ? but thanks for including me .
i appreciate it ?

edit : this user should be on the list

Added SIMAAS, but not Maxim, while he is great, he does not wish to be added as he doesn't usually sell to HF members openly.
