Professional27 - September 5, 2017, 9:43 pm

Title speaks for itself guys. There are some basic rules placed to avoid leechers but at the same time trying to give a chance to everyone that doesn't have the time to participate in the forums as much as some of us do.

Qualifications:50+ Posts

Positive Reputation

Must Pass a Scammer Report Test

US & Worldwide members are welcome to participate

Ebay, PayPal and Facebook recommended

This is a 24 hour contest

***Disclaimer**

I will NOT be providing you with an Ebook. Instead I will be guiding you step by step via Skype, Discord Or Email. I will NOT ask you for any money in return, however I do recommend a budget of \$10-20 minimum to start up.

Why am I doing this? The winner will be able to give TRUE feedback on my sales thread coming soon. I'll also give out some extra copies for additional feedback.

Answer the following question to be officially entered in the contest. Only one reply will count so multiple posts does not mean multiple entry.

\$100 Per Day on it's own is not much in the US. However an additional \$100 per day is a nice side income for anyone.

What would you do with an additional semi-automated \$100 per day to your income?

Edit: Careful with your answer, if I choose you I expect you to follow up when you start earning.

Danny Khalifa - September 5, 2017, 9:50 pm

I would really like to win this and give a feedback which is completely true to other members. So everyone buys a method which indeed works.

Anyway, thank you very much for doing this, I really hope I'll be the winner.

Good luck to everyone!

???Berlin??? - September 5, 2017, 9:52 pm

Some money to start of school and my new house etc would be a fucking nice thing right now lol

Gg Eco - September 5, 2017, 10:25 pm

With \$100 semi automated profit a day, I would probably use it to invest into crypto to make more money.

Thanks for the giveaway!

Joy - September 5, 2017, 10:25 pm

With an additional \$100 per day i could live off it. People in my country earn an average of \$20ish per day.

Well i will basically invest all the money that i earn into cryptos.

Neverest - September 5, 2017, 11:44 pm

People work a whole day here in my country to Earn \$8/Day.

Average monthly pay for Many job types is less than \$150

Quote:Whole of my family would literally live a life above middle class with such that income every day. But as we already own a Farm we make a Happy living by ourself.

I could register a INGO/Orphanage

I would run a orphanage Renting an apartment for \$250 per month for several of Homeless childs, or even send them to School and provide you update on the progress via video weekly.

\$100 a day is \$3000 a month which is 3Lakh[Approx] here

I could feed them.

I could provide them Clothes.[Monthly new clothes]

Provide basic regular health check ups.

I could even send them to school,as schooling here is around \$7 per month for primary level.

and help them join vocational skill development trainings so they can be self dependent.

Keeping you as a founder of our Non-profit organisation I would Also offer you an invitation to visit here and spend your time with Children & Elders

Tohka Yatogami - September 6, 2017, 12:01 am

Going to be straight up with you, if you were to provide me with this method and it works, I'd use it to buy weed, games, alcohol, and pay off my credit card debt lol.

Bluffer - September 6, 2017, 12:16 am

I think this is a great idea and more people need to offer something like this for a true review of their eBook method.

Quote:What would you do with an additional semi-automated \$100 per day to your income?
For me in my current situation, \$100 a day would get the job done and I could easily use it as savings. At this point I'm nearly ready to buy a new laptop, I will sell the old one and use the rest of the money I have to get a really solid one.

Hope you at least consider me, cheers!

AlphaTurtle - September 6, 2017, 1:43 am

With this money I'll start investing more into crypto currency. I'm also from a poor family so I'll help my parents with some of the money. And third, I'll buy a laptop, a new phone, and clothes.

gky159 - September 6, 2017, 3:18 am

With an additional \$100 per day i could live off it. People in my country earn an average wage of \$300 month

Well i will start investing more into crypto currency.

onsomeshiz - September 6, 2017, 3:20 am

First of all thank you for being generous, really appreciate that in people, I'm posting to enter, considering I live in a wooden house on the Caribbean and we are hours away from getting hit by hurricane Irma, any extra cash I could make would greatly help me and my family, good luck to everyone and of course thanks OP!

HuntedCS - September 6, 2017, 3:30 am

To be honest, this an extremely generous offer, I think we could all use an extra \$100 a day, and if this really works but I do not win I may consider buying it. With the \$100 a day, I will invest into some of my upcoming website projects, as well as a little bit of fantasy football and sports betting. Good luck to everyone here! ?

HOMODIN - September 6, 2017, 3:33 am

With an extra income like that I would pay off my own debts and give back to the community, most likely with weekly upgrade contests. What ever gets left after that I'll probably use to get myself a new computer since I had to sell mine just over a month ago, needed the money because I broke up with my fiance...rip...

Thanks for doing this!

BTB™ - September 6, 2017, 3:41 am

- What would you do with an additional semi-automated \$100 per day to your income?

I am from India. \$100 per day is like Rs. 6600 here. This is no way an additional income, rather we can run a full family with this. I would consider myself lucky, if I get this.

Skull-13 - September 6, 2017, 7:28 am

*What would you do with an additional semi-automated \$100 per day to your income?

Well, I'm gonna give a good use to that \$100 per day because I'm planning to invest in cryptocurrency.

Captain Morgan - September 6, 2017, 7:55 am

"What would you do with an additional semi-automated \$100 per day to your income?"

With \$100 per day extra, then I would put 50% of the money I make into a savings account. I want to move from the place I live at currently, and out to something away from the city.

Living where I do now isn't the best.

Shitty apartment, it's big, it's cheap.. But health wise it's not so good for me.

Good luck to whoever wins this.. And please actually use the method. So many get things for free and do nothing with them..

marakuq - September 6, 2017, 8:12 am

I'd invest part of it in Cryptocurrencies and part of it in other ventures. I'd also be living an above middle class life in my country with such earnings. :)

Captain Pre - September 6, 2017, 10:27 am

What would you do with an additional semi-automated \$100 per day to your income?[/color

Ans: I would save this up and invest them in some projects and open a Currency Exchange Shop in HF ! I always wanted to help the people in HF so I would help them with this method and I have a super cool idea of BUYING E-Books and giving them a very HONEST Review (So no-one gets scam) I would use most of the money for this TBH !

So that's my honest answer for your question?

I can leave a HONEST Review on your thread for you

Mr. Robot - September 6, 2017, 10:30 am

I figure if I win, I would help you out more than you help me.

Prettykitty - September 6, 2017, 12:58 pm

What would you do with an additional semi-automated \$100 per day to your income?

It'd go towards bills mostly, credit card, mortgage and groceries.

The rest would go towards buying a new phone, and into savings.

Da? ?ae - September 6, 2017, 1:00 pm

What would you do with an additional semi-automated \$100 per day to your income?

I'd set all of that money aside, and still work my day job. That set aside money would turn into my car bills, and would help me on finding a new apartment for a better price and leasing arrangement.

I'd also give back to the community with giveaways constantly, but not stupid giveaways. Knowledge testing, one's that you have to know something to win. Something that will keep strong engagement with HFs many topics.

CleanCarrot - September 6, 2017, 1:04 pm

with 100\$ I could finally start to buy me a pass for the gym, and I could use some of the money to buy all the music I hear, instead of downloading it.

I would also use this money to buy things I buy often like weed alcohol etc...

CHeers

CloudD - September 6, 2017, 1:30 pm

Thanks for hosting this giveaway.

I would like to win this, because I can provide a good review and also to make some bucks, because in my country people earn like \$15-\$20/day, so \$100/day is a great amount. Also, if I win I will invest in other projects.

Thank you and good luck!

¹³³⁷ - September 6, 2017, 1:40 pm

With this money I'll start buying on hackforums because atm I can't afford a crypter it's expensive.

thanks for the contest.

LuvXo72 - September 6, 2017, 3:14 pm

What would you do with an additional semi-automated \$100 per day to your income?

ANSWER: Honestly buy some irl things cologne, clothes, food things like tht and put in money for crypto investments tbh

AMPServices - September 6, 2017, 3:17 pm

I would start making money and then reinvest them until I get enough of them to buy what I need. Books, debts, fees and other things that I need to pursue my career.

Mizzy - September 6, 2017, 3:21 pm

100\$ a day , damn

Excalibur - September 6, 2017, 3:32 pm

Would love to fit in my class with all the cool things and clothes, and probably invest the profits into the same method or somewhere else! :)

RUMRUN - September 6, 2017, 3:34 pm

Invest into the crypto scene, good luck everyone else

Moneyroller - September 6, 2017, 3:35 pm

I would use it to help supplement food costs while I'm at college because it would help a lot. I am barely able to get enough hours a week after working and anything of that nature. Thanks for the opportunity op!

oscast - September 6, 2017, 3:39 pm

With 100\$ a day I would start saving up for college. Gotta do college to even get somewhere in life now

Professional27 - September 6, 2017, 7:19 pm

Just under 3 hours until this thread is closed and a member is chosen.

I'll re-open the thread and post the winners name publicly. Afterwards I'll leave the thread open for further discussion.

Best of luck to all participants ?

NinjaLeaks - September 6, 2017, 7:24 pm

Well as of rn I could really use a extra \$100 per day with college going on and shit.

Honestly I would probably use it to go out and eat more often then to have to cook at home all the time lol.

I would also use some of it for gas, entertainment etc.

Thanks for this giveaway and I wish everyone the best of luck :)

bobjoe7 - September 6, 2017, 8:12 pm

I would probably use the extra income to help out my family and pay the bills,
thanks for giveaway brother
gl everyone

?heshire - September 6, 2017, 8:24 pm

If I had an extra \$100 a day income, I would use it to quit my job and go back to school full time so I could pursue my career in cyber security. It has always been my dream to work in the field, but things didn't fall in my favor and school can't be a priority at the moment.

Quiver - September 6, 2017, 9:06 pm

I'm currently starting a business on Amazon. I have put a lot of money into it so far and it's starting to do okay, but I don't have any more money to spend on advertising and such to keep it going. I would definitely be able to put the extra \$100/day that I learn from your method to good use by fueling it straight into my Amazon business. Thanks so much for this opportunity!

Nebo - September 7, 2017, 3:08 am

I'm interested, where I live \$100 is a lot of money per day.

Monthly paycheck for most of the people is \$350-\$500.

No?orious - September 7, 2017, 3:12 am

What would you do with an additional semi-automated \$100 per day to your income?

Probably use it as my week to week money so that I can essentially put \$100 more to paying my house off, as well as rolling it over in the same process that is helping me gain the extra \$100 a day with the intention of turning it into an even greater daily amount.

I work 42-60 hrs a week, so would be good to have something on the side that is semi-automated.

Thanks for the consideration, best of luck to everyone. Thought i'd throw my hat into the ring. ?

siddy357 - September 7, 2017, 5:27 am

I am interested and would be quiet happy to receive a vouch copy of this upcoming product of yours.

Pr3stige - September 7, 2017, 5:43 am

I'm interested in this and would leave an honest review.

Saintak3 - September 7, 2017, 5:45 am

I would love this ! I have like 5k in Debt Collection.. So im basicly fucked..
This would help a lot!

Cool - September 7, 2017, 7:41 am

What would you do with an additional semi-automated \$100 per day to your income?

Well to start off \$100 daily here on my contry is a lot and not many people makes that much, with that money I'd start by fixing my car, it needs some electrical repairs that I don't have the money to repair, then I'd give some of it to my family, they have done a looot for me and I feel the need to payback with the same love. And most of this money would be invested into cryptocurrencies because I like the idea of being my own bank and making some profit on the go.

Good luck everybody, thanks for hosting the contest OP.

Viral Dragon - September 7, 2017, 8:02 am

I would pay my bills, pay down debt, buy some land for my non profit which is dedicated to housing homeless people and getting them off the streets - buy something nice for my wife

Pay off my moms debt eventually donate some to HF and charity and then finally invest some of T

That's what I would do with the money if it truly made \$100 a day

-Viral.

Snakester - September 7, 2017, 8:26 am

Wow this so cool of you!
