Thread: [\[Xbox 360/One\] Free COD BO2 MP Recovery Service \(Don't Need Account Details\)](#)

Gummy Bear - September 6, 2017, 4:54 am

I have a JTAG/RGH just sitting here and decided to do this for the people who wanted it for BO2, since I think the game is now backwards compatible on Xbox One some people might want this.

Just PM if you want this and we'll talk through PM or Post Below. I am not responsible if your account get's banned however your doing this at your own risk, however I don't think they watch this game anymore but someone can correct me on that. ?

PM Me or Post & fill out this form:

Gamertag:

Legit Stats(Y/N):

Randomized Stats(Y/N):

255 Unlock Tokens(Y/N):

Max League Stats(Y/N):

Unlimited Class Items(Y/N):

I don't need you to be online for me to do this

Prophett - September 6, 2017, 5:21 am

do you not know how to do remote recoveries? That way you don't need to recover any accounts.

I don't I have the RGHC Tool people said it's remote recovery but it doesn't look like it but the again I've never seen how they work.

I think I still have the tool I use. Let me know if you want it.

If not then thanks for the share. I was going to do the same but thought not many people would be interested.

Gummy Bear - September 6, 2017, 6:14 am

No longer need to log into your account just need your GT, send me a PM if you need this! Thanks Medd for helping me :)
