I just sent him another message on Skype so if for whatever reason this falls through, I will choose another random member. Assuming time is both in our favor, I'd like to get you earning at least \$50 your first day but also getting everything set up so that the rest is just daily maintenance.

Waiting on that review, I might be interested in making a purchase.

No problem, there will be a testimonial posted as soon as possible. I just need to make sure I give enough time for a fair chance before I choose another.

Did the method worked bro?

Professional27 - September 8, 2017, 10:31 pm

I've spoken with LuvXo72. We only discussed the first part of the set up which is a strategic move for setting up the entire network of income streams. IF he takes action and puts in the effort, I guarantee you that he will make money within 24 hours. Not just random ad click change either. He'll be making at least double, or triple the investment and potential for a lot more.

Looking forward to his success and everyone else's success stories when I release the product. If you guys have any specific questions feel free to ask here and I'll give you as many details as I can. ?

Professional27 - September 9, 2017, 9:15 pm

I have plans of releasing it early this week. Just waiting on a reply from HF Support about advertising prices etc.

The main factor MAY be considered Greyhat at the worst but the methods/techniques used are white hat so nothing illegal. You're just connecting the dots and making a huge profit. No adult, CPA, Install, etc

LuvXo72 - September 10, 2017, 10:38 am

UPDATE: So far after he's given me ONE of the methods I've been making money I didn't set it up right away but my first 24 hours of setting up the FIRST method I made \$66 :D and it was right when I woke up all in the span of an 30 minutes (so 1 hour ago I woke up) I haven't moved on to any more but the first one can easily make you \$\$\$

Congrats LuvXo72! I hope you can make the most out of it!

LuvXo72 - September 10, 2017, 7:50 pm

OK probably last update on this thread from me tbh but I made \$150 profit today and today was my first official day as the other days i was busy. Definitely happy because I normally make \$10 a day with my own method i came up with for cpa but this method OP gave me is different and so easy and efficient. Honestly could've made \$200 or even more but I made a mistake on my end :P

Congratulations mate,

I'm sure majority of people are interested in this and looks promising depending on the feedback received. I'll get stiff if vouch copies get given out, it really does sound too good if you can actually earn that per day. Is it something that can be saturated? Another thing to consider. :-)

Ebooks get hella bad rep around here, LOL. So I look forward to the feedback!

It's almost sad how much rehashed, outdated stuff gets rehashed all over again and sold. I'm not worried about it though because this is nothing new to me. A product that delivers on it's promises is what I am going to sell. Not an ebook. ?

Yeah, at the end of the day you're a random over the internet. Doesn't matter what it is mate, haha, you're going to look sketchy regardless. Understand where I'm coming from? :-) Its all talk until it's proven, I do like the fact you're trying to do that though. Ebook or product, regardless.

How about I send you one of my rough drafts? I won't send you the final version only because it includes more valuable information. In turn you can leave your feedback on this thread after reading, then tomorrow you can leave feedback on my Sales thread. Pretty good chance you'd make money within 24 hours if you put in the effort.

Deal?

Just want to be clear, I'm not having a go at you at all. This is just general consensus in my opinion, I'm a sceptical person over HF.

I'm happy to discuss with you over PM, I will give it an attempt and happily provide you a review.

I work 40-60hrs a week, but if I'm able to do this on the side, then yes. Will be in discussion with you.

Of course, I completely understand and agree with every single person that is skeptical about these things. PM me your skype when you have a chance. With this rough draft alone, I promise you that you'll make a nice side income investing minimal amount of work, time and money. You already work 40 hours a week, I'm not going to waste your time nor mine with junk. ?

Alright mate, got 5 hours left. I'll be in touch with you, we'll discuss via PM. Thanks for understanding. I'm intrigued, will be happy to give a review on this. It's a bonus for me. Cheers.

Update: Notorious will be receiving a rough draft (Vouch copy) of my guide. The final version has more valuable information so I will leave that exclusively for the Sales thread. I may still choose one more member for a review from the Sales thread. Keyword: May.

Thank you for your interest Brian but I already have enough reviews coming in for tomorrow. If you'd like I can link you to my Sales thread once it goes Live tomorrow.

No?orious - September 12, 2017, 12:21 am

Alright, I've given it a read and with that being said, im a very honest bloke from Australia. This is all my own, honest opinion.

The rough draft I was supplied with was very detailed for being a draft, it could easy pull rank over some of the paid ebooks that I have reviewed in the past. With that being said, again, it's not even the final copy.

This specific niche which I won't mention isn't overly saturated with marketing of this specific type, which I really do like. Furthermore, there is 5 different ways you can monetize this niche as he has instructed within 5 different paragraphs, detailing how/why/if you were to use this method. I can easily see this pulling in the amount he has claimed with little work, it really isn't much effort at all, with setup for it probably taking 5-10 mins, sourcing the niche maybe another 10, finalised in 20-30 mins ready to go. I'm quite a busy bloke so I won't test it for myself as of yet in such short notice, but ive said I will try when his sales thread goes live with the finalised copy and I'm on a computer and not my phone as I am now.

Secondly, It can easily go into bigger figures, it all depends on the time you put in to create this into an almost fully autopilot project depending how far you go with it. It's well written and straight to the point. As I said before, I was pleasantly surprised, yet it was only a draft. I expect big things and don't have any cautions for when the full product comes out. A beginner or expert can use this and you can incorporate a lot of potential supports for this method that will boost your earnings drastically which OP hasn't mentioned within his sales post as of yet, with the right resources if I was to get creative this could go to 500\$ per day. Even with no supporting resources, you can earn 100\$ a day. Ugh, it's hard to explain without giving hints away, it's just really well put forward and it has a lot of potential

It supports really any level and better yet, you can customise it and use his ORIGINAL method, in your own ways, platforms, you can just get creative with the way you market this is all I'll say.

It's great mate, sorry that I was sceptical but I'm happy you proved me wrong.

cntrade - September 12, 2017, 1:51 am

Vouch for this method! Works perfectly
