Thread: [\[Exclusive Method\] \\$100 Per Day \[Plug of All Trades\] Multiple Income Streams \[Easy\]](#)

Professional27 - September 12, 2017, 1:52 pm

I am no longer selling this guide via this sales thread. HF Member [ichivictus](#), who previously purchased my guide "Plug of All Trades" was kind enough to offer me a copy of his most recent guide in return for some feedback and an honest review on his [sales thread](#). As soon as I started reading the guide I knew it was in fact a legit guide that could be used to set up a nice easy side income because I already do this myself even though this information is NOT included in the "Plug of All Trades". I have teamed up with [ichivictus](#) and give him full rights to include my guide "Plug of All Trades" with his own guide via his [sales thread](#). I can vouch that his guide alone can help you earn a nice daily income, imagine what it can do combined with my guide "Plug of All Trades". I will still be offering the same great support and updates to all current and new customers of mine, additionally I will be offering the same support to all of ichivictus' customers as well.

**I am leaving this thread open to discussion for the next 24 hours to answer all if any questions arise. Thank you all for being a part of this journey.

STORY: First to begin with i'd like to say how I received this ebook. OP was holding a contest for one person to get this early, I entered and won. OP then walked me through JUST ONE of the methods and explained to me how to do it. I made \$150 my first day \$100 the next and today is my third day with it and the day isn't over and I hit \$80 but there's much more time left in the day. (STILL DOING JUST ONE OF THE METHODS ONE OUT OF MANY)

SIMPLICITY 10/10: The guide itself is very straightforward you won't be confused, nor are there any words a low-medium level english speaker may not understand. The method as well require minimal work especially compared to the amount you'll be making 1 hour to set it up and 15 minutes every day won't hurt.

There's multiple income streams and you would have to be atleast familiar with 4 of them, making it extremely easy to begin.

Time for the review pre earning money (hopefully lol) :

The ebook is pretty simple to understand , it is straight forward . As usual with the ebook on hf , you have to be creative . Op tho gives specific idea but well we all know that's not where the real money can be made .

That's pretty much it tbh , just follow what the ebook says , do some research on the product , do the set up and wait .

I'll update here if/when I hit the first sale ;)

(Oct 1, 2017 02:44 AM)Skil@h Wrote: [\[CITE\]](#) Well, I bought the ebook few days ago and made the money back within 24 hours.

The primary and base method is selling very good, I had many sales in few minutes interval, quite impressing !

I even got Ebay messages from buyers that asked me for more, dozen more !

However, I'll just make some few bucks more then stop using it, because you need to be very active on Ebay and very responsive, and with my work shifts (phone restricted where I work), I cannot be that Ebay seller.

I might use it when I'm on holiday at home and make few hundreds within few days but tbh if you twist it a little you can make very big bucks for sure.

(Oct 1, 2017 02:53 AM)Galardowyn Wrote: [\[CITE\]](#) Resumes well my experience .

You will make money with that method but if you only uses what conejo gives you as an example you won't be able to keep up .

I had to stop selling too because it's way too time consuming and you need to deal with tons of things at the same time .

It's great for quick bucks but you need to find the little twist to make it less time consuming and for the long term .

Overall , it's a good method .

Here are some reviews from previous threads:

No?orious Wrote:Alright, I've given it a read and with that being said, im a very honest bloke from Australia. This is all my own, honest opinion.

The rough draft I was supplied with was very detailed for being a draft, it could easy pull rank over some of the paid ebooks that I have reviewed in the past. With that being said, again, it's not even the final copy.

This specific niche which I won't mention isn't overly saturated with marketing of this specific type, which I really do like. Furthermore, there is 5 different ways you can monetize this niche as he has instructed within 5 different paragraphs, detailing how/why/if you were to use this method. I can easily see this pulling in the amount he has claimed with little work, it really isn't much effort at all, with setup for it probably taking 5-10 mins, sourcing the niche maybe another 10, finalised in 20-30 mins ready to go. I'm quite a busy bloke so I won't test it for myself as of yet in such short notice, but ive said I will try when his sales thread goes live with the finalised copy and I'm on a computer and not my phone as I am now.

Secondly, It can easily go into bigger figures, it all depends on the time you put in to create this into an almost fully autopilot project depending how far you go with it. It's well written and straight to the

point. As I said before, I was pleasantly surprised, yet it was only a draft. I expect big things and don't have any cautions for when the full product comes out. A beginner or expert can use this and you can incorporate a lot of potential supports for this method that will boost your earnings drastically which OP hasn't mentioned within his sales post as of yet, with the right resources if I was to get creative this could go to 500\$ per day. Even with no supporting resources, you can earn 100\$ a day. Ugh, it's hard to explain without giving hints away, it's just really well put forward and it has a lot of potential

It supports really any level and better yet, you can customise it and use his ORIGINAL method, in your own ways, platforms, you can just get creative with the way you market this is all I'll say.

It's great mate, sorry that I was sceptical but I'm happy you proved me wrong.

LuvXo72 Wrote:K probably last update on this thread from me tbh but I made \$150 profit today and today was my first official day as the other days i was busy. Definitely happy because I normally make \$10 a day with my own method i came up with for cpa but this method OP gave me is different and so easy and efficient. Honestly could've made \$200 or even more but I made a mistake on my end :P

I really can't see myself doing this without PayPal but I am very old school so I'm sure it's doable without it but you should at least have the option for the buyer to pay via PayPal. As you can see I just now started accepting BTC.

So I'd say you definitely need PayPal only because its the most common way to pay when you do business outside of these forums.

Time for the review pre earning money (hopefully lol) :

The ebook is pretty simple to understand , it is straight forward . As usual with the ebook on hf , you have to be creative . Op tho gives specific idea but well we all know that's not where the real money can be made .

That's pretty much it tbh , just follow what the ebook says , do some research on the product , do the set up and wait .

I'll update here if/when I hit the first sale ;)

Thank you for your purchase Galardowyn. I'm glad to hear from everyone, that it is straight forward and simple to do. If you need any assistance feel free to reach out to me anytime.

Thank you everyone for giving this a shot. These decisions are tough when it comes to buying "ebooks" or "guides" in the Making Money Niche with so much outdated stuff being sold repeatedly. I hope I have posted enough details and information throughout this thread for anyone who may be interested. As always if you have any questions or concerns, feel free to contact me via PM or any of the contact options provided on my opening post.

I'm not sure what more proof you would like to see but one of the members that received the guide just broke the \$1000 profit mark in less than a week. I'll see if he can come back once more to update. ?

I have purchased this, and my initial reaction is positive.

When I have set up one or more of the income streams, I will report back with a more detailed review, as well as my earnings.

The seller has answered every question I had (Both pre- and post purchase) with satisfaction.

Professional27 - September 20, 2017, 10:31 am

Update

I am working on an upgraded version of this guide that will contain all of this information in more detail, but will also include additional information that will set you up with not only multiple income streams but also monthly recurring payments from your customers.

This will be free for anyone that has purchased this version, version 1.0 of the guide.

Well, I bought the ebook few days ago and made the money back within 24 hours.

The primary and base method is selling very good, I had many sales in few minutes interval, quite impressing !

I even got Ebay messages from buyers that asked me for more, dozen more !

However, I'll just make some few bucks more then stop using it, because you need to be very active on Ebay and very responsive, and with my work shifts (phone restricted where I work), I cannot be that Ebay seller.

I might use it when I'm on holiday at home and make few hundreds within few days but tbh if you twist it a little you can make very big bucks for sure.

Resumes well my experience .

You will make money with that method but if you only uses what conejo gives you as an example you won't be able to keep up .

I had to stop selling too because it's way too time consuming and you need to deal with tons of things at the same time .

It's great for quick bucks but you need to find the little twist to make it less time consuming and for the long term .

Overall , it's a good method .

I just hit my first \$300 in one day and can say that it works like a charm. It is not for those that want passive income however. As many post before me stated, the more you sell, the more time you need into this. You basically take care of your own store, therefore you have to take care of your customers. It is perfect style for me since I'm a digital nomad, and I rather do this than work 9-5 for someone else.

Big vouch again for ConejoMalo

I am no longer selling this guide via this sales thread. HF Member [ichivictus](#), who previously purchased my guide "Plug of All Trades" was kind enough to offer me a copy of his most recent guide in return for some feedback and an honest review on his [sales thread](#). As soon as I started reading the guide I knew it was in fact a legit guide that could be used to set up a nice easy side income because I already do this myself even though this information is NOT included in the "Plug of All Trades". I have teamed up with [ichivictus](#) and give him full rights to include my guide "Plug of All Trades" with his own guide via his [sales thread](#). I can vouch that his guide alone can help you earn a nice daily income, imagine what it can do combined with my guide "Plug of All Trades". I will still be offering the same great support and updates to all current and new customers of mine, additionally I will be offering the same support to all of ichivictus' customers as well.

******I am leaving this thread open to discussion for the next 24 hours to answer all if any questions arise. Thank you all for being a part of this journey.
