Thread: [Where can I exchange hundred of \\$ of PayPal to BTC daily?](#)

Mobe - September 9, 2017, 5:56 am

Payments would not necessarily be sent from the same PP everytime

Is there a service where u can get like verified by uploading ID or bank and then you can be trusted? without having to link pp or use same pp everytime?

Imm?rtal - September 9, 2017, 6:01 am

Definitely not if it's coming from different paypal accounts

Mobe - September 9, 2017, 6:10 am

Why not?

They ask for pp verification on their site or?

What if i show them id?

Or use different exchangers every time?

Sending from different paypal everytime is 100% fraudulent, nobody will take the risk, depending on your country I may have a offer for you so PM me with your skype.

LMAO, take your attempt of fraud elsewhere man....

No ones gonna deal with that BS around here.
