Good job! Hopefully next time i'll find some ppl who pay.... Only found timewasters in the past.

Good work man! Thinking about starting ewhoring aswell :D

Rolex Gold - September 12, 2017, 11:35 am

Nice job.

Just curious though, why are some of the payments you receive odd numbers like "\$24.56?" Whenever I receive money on PP from e-whoring, it's always a solid number like \$20 or \$45.

It's because some of them charge a fee for being transferred. It happens when there's a currency change. Sometimes I get payments from the UK sometimes they're Aussie or Arab. So some are weird ass numbers and others are pretty even.

Thanks! And aww, just keep at it. You get a little tingling sensation after a while and you meet a time waster. You can pick them out quick.

Only posted the money I got from PayPal cash because no real proof of amazon GC, although, I did make around \$400 in Amazon GC if you're wondering.

Private method! Can't share, don't wanna get it saturated and be making scraps.

My PayPal was verified too. You'll get fucked somehow. What I did was either cop AGC and convert it on here, cop normal gift cards (sephora/dominos/whatever your country has), and sell them for half price on Facebook to friends via Bank transfer.

Easiest ways and guaranteed money, keep the AGC in BTC for a little and then convert to your verified PP. Don't risk your PayPal, they'll limit it and ask for ID of your eWhores lol.
