Guys, this goes very in depth into amazon fulfilment... Like very in depth.

Currently at work so have only read through the first 5%.

It's all very well written content and I can see it going somewhere even though I've only read 5%

I'm going to take a shot with a budget of \$500.

I will update when I have more details.

So, you show us your "office" with a guy vaping in his chair. Then you show us your "warehouse" that you "assure us isn't empty and you just got a huge shipment in", yet is still very empty. You don't show any proof of earnings besides a blurry image with a piece of paper with your name on it. You don't show us proof of your Amazon account besides an easily edited screenshot. You also say "My grandpa paid around \$10,000 for these courses and bonuses. I'm offering them to you for less than 1% of that!". Where did HE buy those courses from? And then why do you say "I HAVE PAID OVER \$10,000 FOR THIS INFORMATION I AM ABOUT TO SHARE IT, THE INFORMATION THAT CHANGED MY LIFE & OTHER CUSTOMER LIVES". So your grandfather bought it, and then you did too? And who are these "other customers" when in the video you said you're just getting started on steemit.

Also, in the video, your "partner" said you guys did over \$400k in sales last month, yet the screenshot provided shows you've done about "\$160,000".

Probably a video of you and your friend at your part time job trying to make a quick buck.

How long did it take you to fully set it up?

Also, how much work is required? I don't care if it's a lot of work. It's just so I know what to expect.

Expect about a month to get everything setup and once your inventory lands, you are ready to sell. You can get by with doing maybe week or 2 of work, but obviously the more hours you put in the more you will make.

Let me know if you have any more questions :)

Can I start with just \$350 of investment? How long are each modules?

(Sep 17, 2017 03:12 PM)BeatNode Wrote: [\[CITE\]](#) Can I start with just \$350 of investment? How long are each modules?would prefer to be \$500-\$1k. At least \$500.

Each module is around 10-20 pages of SOLID information.

For anybody wondering "Why is he giving this for \$34.95 if im already making so much money".

There are thousands of amazon categories so I will more than likely not compete with one of you guys. Also, the more amazon sellers the faster amazon will grow. Lets make this money!

Contact me on skype if you got any questions :)

There is no amazon establishment in my country but amazon can ship here. Will this work for me?

Edit: not all amazon sellers ship to my country. But the question still stands.

PS: before you say how dumb of a question this can be, my issue is: can I still do this while amazon handles my stock? Is this possible with me not being physically present to receive my inventory?

Not a dumb question! thats a good question.

I have no idea because I am in the US. You need to check with amazon to see this.

About \$500-1000 to invest. Hours of your time.

This CAN be a get rich quick IF you put in enough time & effort. Took me about a year to get where I'm at.
