Thread: [OSCelestial Java RAT gone too?](#)

**foxtrott50** - September 14, 2017, 11:42 pm

Whatever happened to Pumpkins, creator of OSCelestial?

**Silent** - September 15, 2017, 7:50 am

Seems like it.

<http://forum.jstealth.net/cgi-sys/suspendedpage.cgi?fid=28>

His webhost has also suspended him?

Talked with him some months ago but he stopped answering and didnt went on hf since.. Or no activity atleast..

**redpois0n** - September 20, 2017, 12:12 am

What is this I told you years ago. Never trusted this guy to last long.

**foxtrott50** - September 20, 2017, 12:23 am

so what now? looked at silentbytes but the reviews i get from there are not encouraging. The beauty about OSCelestial was that it built its stub and crypted it immediately. Any suggestions guys?

**?Screamo** - September 20, 2017, 2:30 am

Feds probably took him. Sudden disappearance like that usually means bad business.
