Thread: [CLEAN UP YOUR EMAIL INBOX | SIMPLE UNSUBSCRIBE METHOD!](#)

Tree of Life - September 15, 2017, 1:28 am

This may have been shared before, but I recently did this and thought I'd share it for those who may not have seen this before.

Head over to <https://unroll.me/>

Click "Get Started now"

Select your email provider (I use Gmail) and click "Continue" to agree to the terms

It should take you to a login page, so log into your emails when prompted

Allow Unroll.me to Read, send, delete, and manage your email + Manage your contacts by clicking "Allow"

It should now find out what you're subscribed too and give you a list

Click "Unsubscribe"

You're done :D

I hope the steps are simple enough. I wrote a part of it from memory as the 2nd time I went back into the service it said I had already cleared out my inbox from subscriptions.

Let me know if you have any trouble and I will try my best to help.
