Ill for sure check out if this legit or not and see if it works for schools

Ocela - September 17, 2017, 12:19 pm

wouldn't consider this hacking. someone has just went in and added the password from the app.

Thank you for this link man. I see it.

sinder22 - September 20, 2017, 6:53 am

This doesn't hack the wifi, its a app that shows you the password for allready hacked wifis that other people have added into that app. Its a popular app that wifi hackers are using to give people free internet all over the world.
