Thread: [Buying a user uber?](#)

Linux. - September 15, 2017, 1:56 pm

Do you still have to be approved for Uber? I want to buy this user an upgrade but he is not leet yet.

Admirably - September 15, 2017, 1:57 pm

Yes, you can trust scan him and check if he's approved for an ub3r upgrade.

SIM-82498 - September 15, 2017, 1:57 pm

They gotta be approved for Ub3r and have L33t.

luke - September 15, 2017, 2:00 pm

If he's not L33t then he's gonna have to buy it and then get approved for Ub3r which will take like 2-6 days normally.

L33T is not a requirement for applying or getting approved.

I doubt that you can apply for Ub3r as a normal member. He just revealed few requirements for Ub3r which weren't known at this time to reduce the amount of applications.

Oh yeah haha i might be lost on this one. Excuse me.

Linux. - September 15, 2017, 2:15 pm

It says on the trust scan that leet is required.

Aqua_fina - September 15, 2017, 2:17 pm

(Sep 15, 2017 02:15 PM)Linux. Wrote: [\[CITE\]](#) It says on the trust scan that leet is required. Exactly, thats what it says when you hover your mouse over

Not Eligible: Requires L33t to apply.

Not Applied: Able to apply but has not done so.

Awaiting: In the queue for review.

Denied: Has been denied but eligible to apply again.

Perm Denied: Has been permanently denied Ub3r status.

Approved: Approved for Ub3r upgrade.
