Spent about \$200 of my CPA earnings to invest

here's the profit: <http://prntscr.com/gmdsc8>

In one week this is so crazy especially for my age.

~ \$700 of it was made today.

Huge shoutout to the Plug of all trades who taught me this shit. Here's his thread

I won't make an additional thread to brag about my guide but I guess I can brag on your thread LuvXo72. You're still one of my top earners so far but you're definitely not the only one getting those numbers ;) So don't slack. Keep it going brother!
