(Sep 19, 2017 02:06 PM)CanisMajoris Wrote: [\[CITE\]](#) Hello all, I received a complementary profile for use with Abenity's service. Through this vouch copy I hope to show you guys what you can expect from this service, and the type of money you will save.

For those who have never heard of Abenity before, here is a statement from their site describing the mission statement, "Abenity is a world-class provider of member and employee discount programs, offering an elite collection of 100,000 local and national discounts in over 2,300 cities across the United States."

Normally this is a service that a business will pay thousands for a year to give their employees perks. Businesses use these to entice their employees away from the competition and to keep them loyal to the company.

So how does this work? Basically, the site has a collection of available discounts that the user can pick from. You pick the discount you want and then it provides you with a personalized link where you get your discount. Some sites give sitewide discounts while others have specific things they allow you to purchase at a discount.

Below I will start providing a few of the discounts that I think you guys will find the most beneficial. The site claims to have over 100,000 available discounts (in other places it claim over 300,000 so I'm not sure what the deal with that is). But the point is, I won't be able to even scratch the surface of what is provided. If you want to know about a specific discount, you could probably ask OP and I'm

sure he would be happy to see if it is offered. The beauty of this service isn't just one offer though, but the way the service cheapens your lifestyle. It won't save you hundreds of dollars on single purchases, but over the course of a year, for the average spender, I could see it saving hundreds if not thousands. So without further comment, let's get right into the discounts.

Discounts on Apple products:

This is by far one of their most popular discounts. On nearly all Apple products and services they offer a 5-10% discount. As well as Employee discounts on Iphone 7s. For example, at verizon an Iphone 7 is currently \$599, and through the link you can get one straight from Apple, unlocked, for \$530. \$70 off the normal price. If you were purchasing one of the newest Mac Books which are around \$1300, and you get 6% off you would save \$80.

Here are some of the other discounts they offer:

Gym memberships:

They have a partnership with a company called Global fitness which waives or greatly reduces gym membership signup fees from gyms such as YMCA and 24-hour fitness. For example, it waives the \$80 fee from YMCA to \$10, saving the user \$70.

Dell:

They claim 40-50% off, in reality as I explored their sit, its around 10-20% off of laptops and desktops. Which is still good. On a \$500 laptop your savings would be \$50 - \$100 saved.

Costco/Sams/BJs club.

Offers savings to popular wholesale clubs, savings seem to range from \$40-60.

For travel and hotels, you can pretty much expect at least a solid 10% off of hotels, rental cars, flights, trains, and more! Judging by our last family vacation, where we rented a hotel at a popular beach for a week, we could have saved almost \$300 with this. On last minute travel they have deals up to 70% off!

Car and maintenance through Firestone:

I wish I would have had this service a year ago when I put new tires on my truck, I spent \$850 on tires, and with this service, I would have saved \$85 with this. Moreover, you get 15% off oil changes and several other basic car care things.

Sporting events and concerts:

There is a wide variety of NCAA, NFL, and concert events that you get a 10% off discount for. This could save anywhere between \$5 and \$30 depending on what the event is.

Shoe savings:

Savings on popular shoe brands between 10-30% off.

In conclusion, you can see how this could really save you some money in the course of a year. If

you continue using this throughout your life the savings could be tens-of-thousands. Especially for those who have legit jobs and making actual money. I'll be using this over the next few months for a biking trip we have planned in Europe. From my preliminary investigation, this will save me around \$300 between flight cost, car rental, and hotel rental! While the upfront cost seems like a lot, if you are the type of person who would use this service often, you'll save the cost and more within a month or so. For me it'll pay off with this one trip I am taking!

Not questioning the legitimacy of this, but out of genuine curiosity, why would you give out vouch copies only AFTER you sell the product three times? Vouch copies are so that people can test out your product, and verify it's legitimacy to ease the mind of potential buyers..

Ok and ill give you a honest answer, I have been doubting if people are truly interested in the product at all. I know personally how useful and reliable these accounts are so I would hate to giveaway something with possibly no return.

I am willing to show through TV the accounts and whats on it to serious buyers.

So abernity is for employers and they can add as many employees without limits for the perks?

If I were to purchase this can I use the perks for friends/family? or is this limited to one person?

Also do you have a list of the current discounts at the membership level you are selling and how does that compare with the tier 1 discounts?

I brought his product few days ago. It was delivered easy and fast. It's a High-quality product, it

provided a lot of different discounts on each categories such as electronic/travel/pharmacy/health/attractions tour and many more. I personally loved the hotels and movie ticket discount. At first it seem little pricy but you can save a lot on the long run. I'm definitely vouch this guy, don't hesitate to give a try.

I don't want my real name associated with this if I don't have to, but wouldn't it look weird if I booked a hotel or flight with a name that is not listed on my ID? Yes, when creating the account there is a Canada option, it doesn't limit option to just Canada, it gives you the same options only your shipping address.

OP was kind enough to show me a live demo of what the account has to offer.

Extremely friendly and seems like a good service to take advantage of.

Still under consideration of whether or not I need the benefits, but if I end up changing my mind there will be no hesitation to work with OP again.

Thank you bro!

Atheist - September 13, 2018, 4:58 pm

Can you post an SS of their current cruise deals?

teamnycz - September 13, 2018, 7:27 pm

Current deals on flight deals? What do you say are the best deals?

I'm assuming this is close to if not some type of "corporate" type thing where they have discounts for literally everything which i'm not interested in and/or because most deals are not really deals.

Sure, it's a great deal and easily will pay for itself but assuming most people have already connections to a lot of stuff since this world builds on connections, which i'm sure not many of the deals are too great or beneficial for the norms.

Example:

Apple 10%, employee discount is 30% and you can easily just befriend someone or everyone. Corporate tickets are \$6 the last time I check for a black tickets, tmobile has \$4-5 tuesdays average once/month, moviepass still worth it maybe, etc.

Hotels coupons are cheaper than the discount probably which I understand this does provide many other perks/discounts

Not confirmed of lifetime but charging lifetime type price
