Thread: [Monero Mining V1 - The easiest way to generate Monero Cryptocurrency](#)

prilux - September 18, 2017, 11:05 pm

Monero Mining V1 is a tool to mine Monero cryptocurrency.

More Info

[https://en.wikipedia.org/wiki/Monero_\(cryptocurrency\)](https://en.wikipedia.org/wiki/Monero_(cryptocurrency))

How to use

- 1) Open the zip file and run index.html
- 2) Type your email (Must be valid)
- 3) Let the program run.

How do i get paid?

- 1) Setup a Monero Wallet at <https://mymonero.com/>
- 2) After registering wait for a email to arrive asking for your Monero address
- 3) Continue mining. When you reach the minimum the payment will be send to your wallet.

How it works?

Everytime you run the program it will ask for your email. All mining you do under that email is saved and the amount of coins will grow as you continuously use the miner.
