Thread: [Angelus's Goals Thread](#)

Angelus - September 19, 2017, 5:36 pm

So yeah saw the other thread and decided I'd make one of my own, partially because I'm bored and also because maybe I can get motivated by sharing with others? Lol I dunno how that works but I'll give it a shot

~

End of 2017:

- Get good grades (Pretty crucial one)
- Keep a smaller circle of friends
- Get a Nintendo Switch (Eh a bit unrealistic and not really a priority but fuck I want one bad lol)
- Start making money from my photography
- Start a web serial
- Start a YouTube channel casually and with friends
- Change overall mindset
- Try weed

~

2018:

- Get into a relationship and keep it for a long time
- Continue to get good grades and pass exams
- Get a job (Hopefully my own business or something I can self employ myself in)
- Change my mindset
- Become a better person towards others
- Become more lax and live life more
- Get drivers ed done
- Make over 10,000 dollars, and save it
- Write a book/screenplay and get it published/submitted
- Start trying to get scholarships

~

Life:

- Become chill
- Get over my depression and anxiety
- Try and help my family through our struggles
- Contribute more to society
- Get a private message from Omni with a friendly hello ??
- Make a difference in the world, or impact society in some way
- Become a Screenwriter
- Become a Professional Photographer

~

Those are my goals as of now, I encourage others to make threads like this, and I will be updating

as much as I can whenever I make some progress on one the goals haha

Might update with short term goals as well, but for now just some long term ones.

Have a blessed day all ?

Getting that Nintendo switch would be my #1 priority. I played 10 minute of BOTW at my friends house and fell in love. I destroyed all his weapons on accident too.

Good luck with your goals.

Really nice and organized thread, I'm thinking about making my own! Totally recommend NOT trying weed, it might feel good in the moment but believe me, after effects suck ass.

Best of luck my man!

Thanks man, my cousin got one but barely plays it, wish I could fly to Cali and snatch that bitch
Imfao

Probably gonna sell some photography or whatnot for it, would be awesome to have that experience on the go

Interested to see where you go with this thread and these goals, hopefully I see this next year with some progress?

Eh I've had plenty opportunities to do so, just haven't

One of my least priorities, but if I can, I will, ofc I can't fund it so I won't even think about making it a habit lol

Indeed so man, quite possibly within the month or next couple

I'll try and update weekly or so with a new short term goal every week, maybe you guys could suggest some?

Could be a nice little challenge

Great to see you have some relatively achievable and realistic goals rather than completely unreasonable ones. Best of luck achieving these.

Yeah, hopefully I can get all this stuff done, then move on to even bigger things lol

Also forgot to add I want to write a book or screenplay and submit it/publish it

UPDATE:

Been keeping my grades up there as well as changing my work ethic, I actually try and do my work now instead of fucking off like I did last year, pretty proud so far lol

Angelus - September 22, 2017, 4:15 pm

Update: Gonna try and finish up editing my first YouTube video tomorrow, as well as making my next week's goal this:

Reach 100 subs on youtube

Pretty ambitious, and unrealistic maybe, but I believe I can make it happen! Will keep you guys updated!

Angelus - October 7, 2017, 2:56 pm

It's been a while, busy with school and such, but I bring a crucial update!

- My grades are fucking great and I'm maintaining them well
- Got myself a girlfriend in which I can envision lasting a while
- Haven't been so stressed out

Goods - October 7, 2017, 3:04 pm

Idk about the friendly hello from Omni but the rest of these seem realistic. lol

Lol hey man a kid can dream ?

You seem to already have your life planned out, these should be a to do list, not goals.

A list of things you should do, a goal is more of something you need to do.

Your perspective is definitely intriguing, and I like that way of looking at it.

This list is definitely leaning towards a life plan but also things I want to achieve in the future, hence

the "goals" title to each
