Thread: [10x YOUR MONEY WITH MY MENTORING | UNLIMITED TRAFFIC CPA, ECOMMERCE ETC | VOUCHER](#)

Isidar - September 21, 2017, 4:51 pm

(Oct 12, 2017 12:15 PM)Visualize Wrote: [\[CITE\]](#) Sorry I forgot to update my progress like I promised last week.

In short, I have been experimenting using the method in several different ways. I found it to be super successful with driving traffic towards my app on the Apple Store which was pretty cool. I made \$70 for revenue for a pretty low quality app me and my friend just to test out app development. If we have a higher quality app to promote, I have no doubt I would have had more success because of the possibilities with in app purchases. The \$70 were pretty much just from ads, so there is a lot more money to be made from in app purchases, or even a game that is has ads playing a lot more frequently (think those addicting ketchapp type of games). Anyway I also have been using it to drive traffic to my eBay and I have seen a significant spike of sales that have been coming from implementing this method. I am continually working on trying to perfect the automated version of the method, and I have ran into some problems that should be getting fixed soon, and when it is all functioning that will be a lot of residual income with very low effort maintenance.

I'll reiterate what I really like/value in what Isidar is selling. A lot of people have trouble earning online is because they can set up good LPs or have stuff ready to sell, but they just don't know how to market it or get traffic, and this is the perfect opportunity to fix that. I am getting HQ TARGETED traffic which helps on conversion rates which is essential to optimizing your work. And because of that, it enables you to do a wide variety of stuff with it, and eBay was not something I originally thought it would be useful for, but its making a lot of money for one niche, and I have one or two more I thought of today that I want to test out over the weekend

More updates on earnings and spend through the thread.

Lets Cut The Bullshit..

Alright let's just get down to it. We all know people post fake earnings looking to lure in the weak and vulnerable, edited images are the biggest culprit. Here are some REAL earnings from me, which have been verified by members in the past through Skype screen share.

I am willing to screen share my earnings if that video of me on my mobile phone showing the earnings aren't enough. However, if I feel you aren't actually interested in purchasing my mentoring, I'm not going to waste my time showing you my earnings for shits and giggles. I have many more earnings proof which can be shown too.

[Video: <https://www.youtube.com/watch?v=HJMZvoYQ0Yo>]

So What Is This?

I will be mentoring you with one-on-one sessions on how to make money using different methods. From CPA/CPI methods that have worked well for me, to helping you getting started SEOing a site and answering any questions you have, so this is giving you many different methods that have worked for me, as well as being able to pick my brain about anything you're interested in, and I'll answer and help you as long as I have knowledge and success in it.

What's The Price You Bitch?

I'm glad you asked. The price is going to start at \$300 and it's going to rise \$50 after every purchase, so obviously it's better to purchase early rather than later.

UPDATE: PRICE IS \$250!

What Payment Methods Do You Accept?

I'll be accepting Bitcoin, Ethereum, Strat & maybe some other crypto currencies.

Will I Get A Refund If I Don't Earn?

Not gonna bullshit you so you go around like a headless chicken over a refund you won't get. I'm simply not refunding. Why? Well, I am going to be going through several different methods with customers, and as mentions previously, I'll literally be mentoring you in any area I know of that you're interested in. Plus let's just get real here, how many of these sellers promising refunds actually grant one? Pretty much never unless you shove a rod up their ass.

FAQs & Shit Like That

1) Is Any Of The Methods Illegal?

Nah, you ain't getting in no trouble, you ain't gonna get locked up and become someones bitch.

2) How Much Money Do I Have To Invest?

It depends, a few methods will require less than \$20, others over \$50.

3) Does It Work In X country?

Works even in the Sahara Desert.. As long as you have internet connection, and a way to collect payments

4) How Does My Punk Ass Get Paid?

Depends on the method. BTC, PayPal, Payoneer & Bank Wire.

5) Does This Include X, Y & Z?

Bitch, I already told you what it will include. You're looking at dope shit like CPA/CPI, ecommerce, SEO related methods and all that shit. Look boys, you're buying my methods AND my knowledge, I can't stress that shit enough.

6) I don't Trust Your Proof, It Looks Faker Than Kim Kardashians Ass

Well, as long as I can tell you're actually interested in the mentoring, I'll show you live proof and some other proof too, ya dig?

ANY QUESTIONS JUST SLIDE INTO THE PM'S

Here's some proof that previous Coaching/Mentoring has made people good money in the PAST. Nothing different here, make the effort, take a leap of faith and you'll earn.

If you are looking to make money online, this is the real deal. There are so many sellers who try to sell you exaggerated crap or stuff that doesn't even work, but I have known Isidar for awhile and I can confidently say he knows what he is doing when it comes to CPA. I have worked with Isidar in the past and he helped me start earning \$20 a day when I first started and that was just through only one of his methods. He has been in the game for awhile now, and he constantly seeks new ways to keep banking. When I worked with him, the method he showed me was very unsaturated at the time and he was one of the first people doing it which is pretty impressive when it comes to CPA. It goes to show that he is innovative which is such a valuable asset in CPA.

If you are putting down the payment to receive the membership, be prepared to actually put in some effort. The work isn't very difficult, but you still need to put it in the time and effort to get the ball rolling. Theres absolutely no way that you don't earn with Isidar's guidance unless you actually just sit there and do nothing. Isidar is very helpful and will be there to guide you when you are having trouble but I would highly suggest to be very proactive while you learn because that will benefit both parties the most.

Huge vouch from me!

Just wanted to drop by and say that I've worked with Isidar for many years.

He knows his shit when it comes to CPA/PPI and SEO, but most importantly making bank.

This guy knows what's up. Selling a product is one thing, but a service like this.. I'll always vouch for that.

Good luck with sales.

Anders1234 - September 22, 2017, 11:40 am

Is this involving ogads and the mobile reward system? As I already know a method of this.

Anyhow GLWS.

Hi,

First of all there's several different methods that'll be used under this mentoring/coaching. Secondly, it doesn't use mobile rewards on Ogads. Some methods use Ogads, but the method is about the source of the traffic, not the network used. Knowing about the network isn't knowing the method.

Hope that clears that up.

Isidar - September 27, 2017, 2:59 pm

Taught Visualize who I know works hard and actually puts work into methods, one of the methods I'll be teaching. Hopefully he can leave his initial impression and then later on once he sets the method up, his earnings too.

Visualize - September 27, 2017, 3:31 pm

I am very thankful that Isidar has given me the opportunity to review his new method, and I am very impressed so far. I really liked the method he taught me at the beginning of the year and I had good success with it, but this is arguably an even better method. I think the thing that is really genius about it, is that you can approach making money in different ways. CPA/CPI is just the start of what you can do, but once you can get the hang of it, you can expand into eCommerce which pays great margins as Isidar showed me his successful past campaigns using this method. The method can produce stable income, and earnings will just depend on your commitment and motivation to put in the work and also to try out new things. The work itself is not hard at all, and you can start with a very minimal investment which is great. I paid for mentorships before but was usually left disappointed because it was falsely advertised, or the method only lasted a short term. This is no

bullshit because the method itself and the knowledge that Isidar teaches you can be utilized in your own long term ventures when it comes to monetizing online.

I am a little busy during the week because of some upcoming exams for college, so I probably won't be completely set up until the weekend, but I can give an updated progress with earnings early next week. I'm hoping I can start using ecommerce with the method by next week because that should generate bank if I find the right niche.
