Thread: [How do get beat outta YT video?](#)

[Video: <https://www.youtube.com/watch?v=3KmOZFsGDY4>]

Is there any way of getting beat/instrumental out of this video? I really like the beat, would love to listen to it without the words of the guy. Tried looking up instrumental version of it but didn't succeed.

No there's no tool or something that can do this somewhat good, try requesting an instrumental.-
