Who sells good bots?

I was going to buy \$100 worth of bots from Pink, but thats only about 500-700 bots. And that is way too damn high for bots.

I was going to buy 1k bots from Null for \$75 dollars, but he never answered.

So, who is active and sells bots for a decent price?

i have not tried pink cause i get my own tier 1 daily.
so i cannot vouch or complain about him.
i generally do not suggest buying from a botshop

yup I agree with the user above, pink is probably the best bot seller on HF.

I wouldnt suggest to buy from botshops.

I've tried also multiple times different shops, these bots was online 1-3 days and died at the end.

Try to spread yourself, that's better in my opinion.

i have tried his bot shop, and for me the bots is good enough, They stay infected as long i don't do anything obvious to the victim.
