Welshdroo - October 13, 2017, 5:53 pm

What will you have it for?
General Use

Why should you have it?
I will use VPS often

What OS do you want?
Windows Server 2012 R2

Fortune - October 14, 2017, 6:49 pm

What will you have it for?
Im going to run multiple bot 24/7 because my pc is kinda slow so it would be the best option

Why should you have it?
Because i could run social media bot and give it for free. And also im already giving 100 YouTube views to every
[L33t/Ub3r] And if i could run bot on a vps this good i could give more views to everyone like maybe 1k or more. Also if you want to have free YT views this is the link ---)
<https://hackforums.net/showthread.php?tid=5736536>

What OS do you want?
I would like Windows because it would be easier but if i win im not going to argue so put the one that is easier for you.

Almonds - October 14, 2017, 6:55 pm

What will you have it for?
Furthering my gold farming on old school runescape!

Why should you have it?
No particular reason why I'd need it more than anyone else, but I would use it on a daily basis.
Would be my 2nd dedi, and my current one isn't near as good as this one! Goodluck everyone!

What OS do you want?
Ubuntu16, or debian. Thanks for the giveaway op!

gtasa720 - October 14, 2017, 6:59 pm

What will you have it for?
To Compile Android OS

Why should you have it?
VPS looks better than my laptop. So i can compile android AOSP and test iy

What OS do you want?
Ubuntu 14.04

Hope i will get one.
Thanks for the giveaway.

CyberneticTitan - October 14, 2017, 8:22 pm

What will you have it for?
Hosting a Seedbox and Folding@Home

Why should you have it?
My use-cases benefit me as well as the community. By hosting a seedbox, I would contribute to the torrent swarm and deliver content to people fast. With Folding@Home, I would be actively contributing to medical research by computing protein foldings.

What OS do you want?
Ubuntu 15.04

larella - October 14, 2017, 10:45 pm

What will you have it for?
Game servers.

Why should you have it?
Saves me money Whistle.

What OS do you want?
Windows server 2012.
Cheers

Zer01 - October 15, 2017, 1:29 pm

Code:
What will you have it for?
Answer here. Testing my programs

Why should you have it?
Answer here.If it's free, why not try

What OS do you want?

Answer here. Windows server 2008/2012

Anima - October 15, 2017, 1:32 pm

What will you have it for?

Will probably use it to run hitleap so that i can increase my work's website traffic when it looks lower than normal on the analytics xD

Why should you have it?

I shouldn't there are probably more worthy people here than I but thought i would give it a shot

What OS do you want?

Windows please :)
