I received a vouch copy from iAsianBacon and this is my review for the first e-book:

This is a very good method, setup took me around 3-4 hours but now everything is auto-pilot and I will post my earnings once I start making bank out of this, I have to say iAsianBacon is very helpful and went as far as creating some accounts for me because I was having some trouble, you can do rinse and repeat the method as many times as you want and it's unsaturable.

The ebook is super detailed with screenshots at every step of the road so you don't get stuck, every screenshot is edited too so you know where to click, so basically is noob-proof, you don't have to know anything prior to execution the only requirement is having a PC connected to the internet and some time.

Big vouch for OP, I'm pretty sure you'll make what you invested in no time.

Offering any more vouch copies for the second e-book?

Are you giving away more vouch copies? If so I'd be interested in receiving one to leave a detailed review, thanks.

2nd* Ebook Review:

I received the 2nd ebook as a vouch copy from iAsianBacon and here is my honest review.

Description:

The quality of the ebook is pretty good. It's very easy to read and follow the steps shown inside. iAsianBacon goes out of his way to explain the steps into detail so you don't need to think hard about what you have to do. It includes screenshots, so as long as you have a brain, this method should be easy to sst up.

Personal Marks:

* Ebook Quality: 9/10 Nice layout and screenshots. Looks like iAsianBacon put a bit of work into it.

* Method Saturation: It's a little saturated, but still easy to do. It's fairly easy to make money with this

method currently. However, if enough copies are sold, I can see this getting to the point of where it's hard to make a profit.

* Setup: Takes about 1-3 hours to get set up, not long at all.

* Overall: 9/10 Vouch for op and his ebook, great way to make a bit of cash.
