Thread: [How to post in the currency exchange pp to btc ?](#)

BenzaHdd - September 24, 2017, 3:13 am

I bought this membership thinking I would be able to post in the currency exchange section on Hackfourms.

I'm looking to exchange my \$100 paypal for someone's bitcoin.

I can't find anyone that needs paypal for bitcoin at the moment so I would've liked to post my own thread but I'm not sure why I can't.

Does posting in that section require certain rep or something ?

You need to be an Ub3r to post in this section.

I know but as I stated above, no one is looking for paypal from bitcoin.
