Thread: [Have you been to Japan?](#)

Vigor - September 24, 2017, 12:17 pm

I'm going to Japan in December and I wanted to hear some experiences from people who've been there. Anyone?

JWH018 - September 24, 2017, 12:17 pm

No and wouldn't want to go, heard they are strict about weed.

Yep~ I've been there several times. I've met good people, delicious food, and interesting culture. I'm sure you will enjoy it there.

I never was in Japan.

But I think it's just beautiful.

Have a good trip mate

DoubleRainbow - September 25, 2017, 6:16 pm

Been twice now, it's an amazing country with rich culture and history. If you are from the United States or any European country I highly recommend going. The culture is just so different from the States and people are very friendly (whether it be because they are indeed friendly or they just don't let you know to your face they hate you).

alexbit - September 26, 2017, 12:12 pm

After watching some anime,I really liked to go to japan.

Lyralei - September 26, 2017, 8:24 pm

unkown123 - September 28, 2017, 3:18 am

Lucky...a friend of a friend of mine was there and sent me a picture of sakura trees, yeah i wish i could see them with my eyes one day...maybe.

Hope you have/had a nice time there ^^

DoroL - September 28, 2017, 4:03 pm

Visited once. Was pretty afraid that I would get disappointed, because it wouldnt be what I imagined. It didn't disappoint at all. Everything was super nice, the people, food etc.. Defo going again sometime.

Yin Yang - September 28, 2017, 4:07 pm

Nyx - September 28, 2017, 4:11 pm

No I have not been to Japan, but I'd like to go someday.

c_-m - September 28, 2017, 4:18 pm

Went to tokyo for 12 days and also took a day trip to kyoto. Really nice place to visit and I will definitely be going back to visit different parts of the country. As people have said the culture is so different to anything I was used to, I was constantly in amazement of how they got stuff figured out.

Once you come back from japan to the mundanities of normal non-japanese toilets life never is quite the same, not even kidding you walk in some of the toilets over there and the things open up like some sort of shit swallowing transformer.

Sit down to your nice heated seat and a control panel at your disposal full of buttons you cant wait to figure out. Some of the features I came across were as follows, button that plays a water sound so to muffle the sound of you shitting your guts out(volume control ofc), water jet that can be pressure controlled AND aimed wherever on your ass you feel needs it, a fan to dry your ass after your water jetting and of course a button to spray out some nice smelling air freshener to minimise the footprint you leave.

illuminati? - September 28, 2017, 6:33 pm

I wish.

I'm planning to go in 2019 with my bestfriend.

vvs1 - September 28, 2017, 6:37 pm

I had a great time in Japan I wasn't able to go far into the city, but I stayed around the Narita area and went to Aeon mall.

They have great fresh made bento everyday.

Vending machines everywhere

Here's a simple summary of my trip:

Spoiler ([Click to View](#)) Hey /a/, femanom here. I heard you guys are all horny about this dumb doll anime. Dolls are for little girls and dorks, don't you know? Bedsides, what would you wanna do with her? Fuck her? Even she would laugh at you, she might just even let you do it just to humiliate you. I bet she'll even let you get rough and cum inside just to laugh at how pathetic you fucking a doll. She'd probably even scream and moan and pretend to be turned on to laugh at your horny face.
