**John Player Special** - September 24, 2017, 5:02 pm

Welcome to my Steam and Battle.net GiftCard shop.

Recently i've noticed that alot of members are in search of Battle.net and especially Steam GiftCards for Cryptocurrencies.

I can get as many cards as needed (atleast so far) easily and have no problems with accepting cryptocurrencies as payment method since im a crypto daytrader.

Obviously i need to cover transaction fee's, my time and effort and need ti make a bit of profit aswell ofcourse so keep in mind that you'll be paying more then the value of the cards.

I can deliver EU and USD cards in general.

Available Steam Giftcards

\$25 Steam Value = \$31 Cryptocurrency

\$50 Steam Value = \$60 Cryptocurrency

Available Battle.net Giftcards

20\$ Battle.net Value = 26\$

50\$ Battle.net Value = 61\$

Prices are lower in bulk!

All cards are legally obtained!

I'm not going first, the purchased giftcard(s) will be delivered within 10-60 Minutes after payment. If you think im overpriced then feel free to look further.

Available payment methods:

Bitcoin

Bitcoin Cash

Monero

Ethereum

1/1 Vouch copy left: Free 5\$ Steam Giftcard.

Highly trusted member only.

Thread Design Coming Soon.
