I received a vouch copy for this method and it's fairly simple and could be potentially scaled to \$20+ a day. It's 100% autopilot and requires no knowledge of anything whatsoever. Method isn't too bad

for beginners trying to make money online although anybody can do it for some extra cash (\$300 - \$400 a month). OP suggests a NET of \$10 a day and I'm pretty sure it's possible to reach more than that if you're really determined to scale this specific method. Could be a really good passive income for everybody as its 100% autopilot.

redrahul - September 25, 2017, 9:31 pm

I'll take a copy of it.

For that sale amount.

I would like to purchase it.

LuxuryModelNetwork - September 26, 2017, 1:51 am

i would love a vouch copy of this, if it truly does make some money i will send 100% of the first day's earnings your way :P

Cool - September 26, 2017, 2:00 am

My bad, I posted the review on the wrong thread, OP has another method here:

(Sep 26, 2017 02:00 AM)Luxury Wrote: [\[CITE\]](#) I received a vouch copy from iAsianBacon and this is my review:

This is a very good method, setup took me around 3-4 hours but now everything is auto-pilot and I will post my earnings once I start making bank out of this, I have to say iAsianBacon is very helpful and went as far as creating some accounts for me because I was having some trouble, you can do rinse and repeat the method as many times as you want and it's unsaturable.

The ebook is super detailed with screenshots at every step of the road so you don't get stuck, every screenshot is edited too so you know where to click, so basically is noob-proof, you don't have to know anything prior to execution the only requirement is having a PC connected to the internet and some time.

Big vouch for OP, if this method is only \$1 then every person on this forum should get this, super cheap and I'm pretty sure you'll make what you invested in no time.

Wrong thread buddy lol

Sadly I only accept paypal

HuntedCS - September 26, 2017, 6:09 pm

The method is simply using the website FluxRewards.com, and is nicely setup. Quite a steal, and I am admin of this site, so any questions can be answered by myself as well.

LuxuryModelNetwork - September 27, 2017, 10:49 am

i received a vouch copy for this eBook here is my 100% review.

Simplicity: 10/10

its straight forward and not hard to follow, easy to setup and get rolling, no hidden fee's or any kind of investment required. it is also a set and forget kind of thing, you are not required to do anything after setup.

Earning Potential: 8/10

this is not a 'make 2000\$ a day' method but it is realistic. this method will make you money, how much depends on a few factors which i will not mention. i can see earnings of 10\$+ a day from this.

overall verdict: 9/10

overall this ebook is difenetly worth the money, you will make your money back upon the first day even doing bare minimal. and iAsianBacon is active on skype to help, huge probs!
