Thread: [Any other good tutorials on java coding?](#)

FaZe_Keem - September 25, 2017, 10:48 pm

So, I read the tutorial on here and well it was very good
but i was wondering if there was any other good tutorials to exoand my knowledge.
Thanks in advance.

I would recommend Head First Java if books spark your curiosity. Otherwise, try to program something of your interests. It will practice your programming skills.

I highly recommend Java Tutorial by Bucky Roberts (TheNewBoston Channel, Youtube).
I say that tutorial is the best beginner tutorial in Java (idiot proof)
