Content: The eBook is very detailed and it is very easy to set up the method, The Author helped me with the setup and provided support with all problems I had faced.

Pricing: The method was Very Affordable comparing to what you can make with this.

Time: It had taken me 30 minutes to setup, Probably due to the reason that I had never even heard of this method before. The rest is autopilot

Overall: I really think the author knows what he's talking about, There are no problems scaling this to a full-time business with the help of the author, Anyways, Thanks for the Vouch copy.

There are multiple methods, currently six. One of them is possible to use with Ebay. Investment not necessary but recommended, never more than \$10 though.

Are all the methods whitehat?

Social media required?

Do I need a website and hosting?

5 Methods are whitehat, one is not.

Social Media is not required.

You do not need website and hosting.

The 20% sale is still going on!

I just took a read at the entire book and tried a couple things as well to test its efficacy and... I'm satisfied with it. The ebook includes five different methods, all explained carefully except for one (there only is one missing point from the steps because of legal reasons, but it's absolutely possible to do that step by ourselves with no problem), and with all the details needed to setup everything and start with the activity in no time.

In a couple of these methods it's recommended to make a small investment to maximize the income (we're talking about an amount that goes from around 10 to 50 dollars top), but these aren't mandatory and the methods can be put to practice without spending one cent. They also look unsaturated and, of course, effective: especially the last one caught my attention because it's extremely simple yet can give you big profits if done correctly, I'm going to use it daily from now on.

A few final words: all these methods are different one from the other and all work worldwide, they don't require any marketing knowledge and are all easy to use (except maybe for one, the one that requires more "work" but can still be profitable, I'm too lazy to do it though).

If I had to give this ebook a general rating I would go with 8/10.

Thank you very much for this detailed and honest review. Indeed, one method is shortened due to legal restrictions, but those specific "3-steps" can be found online when doing a bit of searching.

For all viewers, the sale is still lasting! Over 15 people were earlier than you, but you can be the next moneymaker with these insane methods.

**Outlaw.** - September 30, 2017, 5:50 am

I read this eBook a day ago and I must say I'm very confident that this could potentially generate a massive amount of money.

It contains 5 methods in total, all of them are legal (except one but it's still insanely profitable), very detailed and effective.

The design of this eBook is simple and easy to understand, I found no grammar errors and it's very well organized.

My rating for this amazing eBook would be 9/10 without a doubt, if you want to make some real money don't hesitate to buy this.

Big vouch!
