Is there actually people buying from an eWhore multiple times? Also won't this get saturated really quick when there is only 5 active buyers on the skype list e.g.?

(Oct 25, 2017 02:47 PM)Bish0pQ Wrote: [\[CITE\]](#) Vouch details:

Originality: 4/5

The ewhoring concept isn't really original but in this ebook everything gets explained very detailed. It has a lot of good sources and files included in it that is very nice to start with. This is basically what you need to get started with ewhoring.

Price/Quality: 4/5

For the amount of resources and files that are available, the price/quality ratio is very good. You can definitely make some good money if you follow this ebook.

Difficulty: 5/5 (the higher the better):

You don't need to have any knowledge about hacking/social engineering/PC's whatsoever. This ebook covers everything you need to get started.

Only remarks:

- Some pictures would be nice (because it's a lot of text)
