I've Paid for a \$200 service so far from this user, I'm going to pay another \$100 when it's come through, he is active and talking to me alot but currently after Three+ days, no installs or reviews for my product have come, I think there is a problem but i'm yet to understand how it all works so I'll

wait it out, He seems like a really genuine guy, So I'll just see how it goes,

I'll vouch when the service is started and or completed, thanks

DO NOT TRUST THIS GUY. Refusing to use MM, registered one month ago, already has negative rep. DWC! Do not trade. User wanted me to go first on a BTC deal and refused to use a MM.

We can easily see 8+ DWC on your rep friend and you expect someone to go first .
