Zowpi is a new service that pays you for promoting links. You can also get your links promoted in exchange.

1. Join at # and generate a short url
2. # pays for every views on your links.
3. now go to zowpi.com and join it
4. Copy the short url and add it in zowpi
5. use a small pay per mile value
6. Now promote others links in the "earn money" section
7. You will get views on your short url
8. Profit
