Thread: [Thread Design #1 - Selling only 1 copy - I will do all text/edits - \\$5 BTC PRICE DROP](#)

Đa? ?ae - September 29, 2017, 1:15 am

No longer for sale - Will be working on some other things

Looks like a decent service , !

Personally, I think \$10 for that thread design is way too much since fully custom thread designs and better-looking thread designs could go for that price ..

Good luck tho.

You're telling me the top vendors on here sell their custom thread designs for \$10..... Cmon now. I may not have the most vouches / rep in the GFX section but it doesn't take a dummy to know that a thread design is an investment of which you'd usually make your money back fast enough if you have a service/product worthy enough...

My orig. price was 15 but I knew it wouldn't go for that low, and I don't want \$5 for almost two hours of work lol..

I don't want to attack you personally but 10\$ seems way too high for this.

From the blurred version I can view, it looks like text with gradient over a picture put together in a way that looks not very professional.

I would suggest to try using cleaner fonts and not use as many effects on the picture.

So you do the branding and copywriting?

I'm sorry, but 10\$ is really too much for this. Top vendors here make thread designs for 15\$ I'm really sorry to say, but If I make something like this I would give this for free

Price reduced to \$5 someone grab this!

I'll do all edits you want, send you PSD and PNG/JPEG whatever you prefer.

Crypto - October 4, 2017, 11:04 am

Is it supposed to be that blurry?

Why not show the full thread design, especially if you're expecting people to pay you for it? How will they know what they are buying? Nobody can steal or edit it without the PSD

Da? ?ae - October 4, 2017, 12:25 pm

Updated thread with non blurred design

Saul Bass - October 4, 2017, 1:06 pm

Looks very dated but I guess it's worth the price your asking.

Eaesi - October 4, 2017, 5:26 pm

Garbage thread design, sell it for \$0.50 and keep practicing.
