We'll see. They have a tendency to fuck up in continued seasons but hey SAO's the shit so yea

Crya - October 1, 2017, 11:28 am

I'm looking forward to the spin-off then actual S3 of SAO.

this anime was worth only on first season, after that I couldn't see it with the same joy like before.

Pretty much in the same boat

Possibly a flop but I'm a big fan of SAO so I will be watching it regardless. The movie was decent enough I quite liked it.

Stashyy - October 2, 2017, 4:41 pm

Only one of them continues the story.

I believe it's the first one which is the third arc.

Hope they make it as good as the LN.

Omtism - October 2, 2017, 5:47 pm

Lol why is there another option besides flop?

Construction - October 2, 2017, 8:32 pm

Damn I wish it was about Code Geass. I cannot wait for it!

Octavia - October 3, 2017, 4:35 pm

Guess its time to schedule chemotherapy appointments. I enjoyed the first season of SAO but after that they ruined it.

neptuneslayer - October 4, 2017, 4:17 am

Sad to say I am looking forward more for the sequel since the third season is going to have most

likely going to have an another weird rape scene

unkown123 - October 4, 2017, 4:35 am

I'm scared....honestly i didn't like the elf part of the anime...so....

Corrupt - October 16, 2017, 3:14 am

jobi - October 16, 2017, 3:15 am

Never got past the first season to be honest and I loved the first season just lack motivation

Yuikoro - October 16, 2017, 3:41 am

I know I'm not gonna really like it, but I know I'll watch it anyway :V

Hopefully it's at least average

test - October 16, 2017, 3:46 am

It'll probably be trash but I'll still watch it just because.

SLY - October 16, 2017, 3:50 am

Quite interested in checking this out and to see where this story leads to.

I liked the first season a lot, But season 2 was disappointing.

Mastor - October 18, 2017, 9:14 am

Speaking of SAO... anybody notice in S1, Akihiko Kayaba said right before Kirito glitched the system, that "it should come as no surprise that I am the final boss at floor 100 in the ruby palace?"

And anybody notice that the floor 100 boss in the movie was insanely strong, but definitely not Kayaba? Lol

RsVace - October 18, 2017, 12:40 pm

Dang they really drawing out Sao. Honestly I don't think it needs to be drawn out so much with all these series. Most of the concepts of the series so far have been the same.

SecrtUsrUknwn - October 21, 2017, 7:49 am

I get why everyone dislikes SAO, it isn't the best anime but it has its high points. It usually is very well finished in terms of art and overall look. It was the first anime i had ever watched not including Dbz and One piece so i guess it holds a little bit of sentiment with me
