"Storm Cracker is the fastest account cracker ever made"
Do you have anything to back that up?

Review:

Storm Cracker is a very good account cracker.
They have very good support and quick and easy setup

Every module was tested and it worked!
Not to mention there is also a build in Proxy Scraper, scrapes proxies from HQ sources!

If you are still unsure of this program there also is a video demonstrating it in action.

My rating of this program is 9.2/10, just because nothing is perfect!
