Deal with it. Threads like these are annoying as fuck and should be forbidden. What do you expect from us? To pity you and give you some reputation because someone gave you a valid negative reputation?

Man up.

You get it my friend without doing anything towards members, you have to live with it.

I wouldnt mind a neg rep with a reason to it, for someone who post in the marketplace with a rep 'DWC' its something..

Since you are L33T UB3Rs will neg you for no reason. Making this post will most likely get you more hate. PM and ask to resolve it.

And what do you want to do about it now? Creating a thread to arouse pity for you? Can't think of another reason since he gave you a legit reputation. People like you used to get even more negative reputations for threads like these.

And even if it wouldn't be nice, WHO CARES? It's a legit reputation, PM him to resolve it but don't create a thread in the RANF section.

This is a valid reputation. You can seek to resolve your issues with the user who gave it to you privately.
